The Joplin Globe gives 'Baglady's Guide' 2 Full Pages

The Grace Magazine Section of the Joplin Globe takes notice of Dina Dove.....again.

While in a previous successful business endeavor, Grace Magazine included a story about Dina in their very first issue in 2001. Now that Dina's book, "The Bagladys Guide to Elegant Living" is published and selling in bookstores, she graced their pages again.

The article gives a little background on Dina, how she came to write the book out of her own personal life journey. Most importantly it goes over the impact that this book is having on people.

A quote from the article, "The test market was having even some of the same experiences. Some cried over the phone. It was transformational in their lives. It helped them see life from a different perspective."

Dina says "I've been fortunate to have lived it all: huge success, complete failure, sweet redemption. And now, at last to introduce a little baglady to a longing world searching for contentment."

The book is available at all major bookstores and on Amazon or directly from her site at <http://www.bagladysguide.com>

Since the mid 1970s, Dina Dove has built several successful businesses. She is also co-author of several multi-media business and life coaching programs including Mind Your Money, Mind Your Business, The Business Owners Success System (BOSS) and The Perfect Tax Solution.
